Independent Auditor's Report

To the Board of Education Corning Community School District Corning, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Corning Community School District, Corning, Iowa, as of and for the year ended June 30, 2016, and the related Notes to the Financial Statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Corning Community School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions and the Schedule of Funding Progress for the Retiree Health Plan on pages 5 through 13 and 42 through 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Corning Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2015, (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 7, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

Van Maanen, Sietster, Meyer & Nikkel PC

In accordance with *Governmental Auditing Standards*, we have also issued our report dated November 21, 2016, on our consideration of the Corning Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Corning Community School District's internal control over financial reporting and compliance.

Van Maanen, Sietstra, Meyer & Nikkel, PC Certified Public Accountants

November 21, 2016

Corning Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2016. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

Financial Highlights

- General Fund revenues increased from \$5,636,644 in fiscal 2015 to \$6,054,730 in fiscal 2016, while General Fund expenditures increased from \$5,859,843 in fiscal 2015 to \$5,974,757 in fiscal 2016. This resulted in an increase in the District's General Fund balance from \$230,206 in fiscal 2015 to \$319,099 in fiscal 2016, a 38.6 percent increase from the prior year.
- The increase in General Fund revenues was mostly attributable to an increase in property tax, state aid, tuition, and local grants. The increase in expenditures was due to salary and health insurance increases.
- Overall, the District's net position in the governmental activities increased by \$521,000 and increased by \$13,000 in the business-type
 activities.

Overview of the Financial Statements

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are Government-wide Financial Statements that provide both short-term and long-term information about the
 District's overall financial status.
- The remaining statements are *Fund Financial Statements* that focus on individual parts of the District, reporting the District's operations in more detail than the Government-wide statements.
- The statements for *governmental funds* explain how basic services, such as regular and special education, were financed in the short term as well as what remains for future spending.
- The statements for *proprietary funds* offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.
- The statements for *fiduciary funds* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

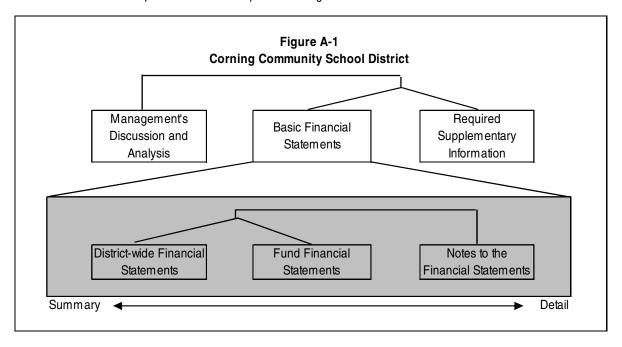

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of the management's discussion and analysis highlights the structure and contents of each of the statements.

	Major Features of the	Figure A-2 e District-Wide and Fund	Financial Statements	
	District-wide		Fund Statements	
	Statem ents	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: · food services	Instances in which the district administers resources on behalf of someone else, such as scholarship programs
Required financial statements	Statement of Net Position Statement of activities	Balance sheet Statement of revenues, expenditures, and changes in fund balances	Statement of Net Position Statement of revenues, expenses and changes in Net Position Statement of cash flows	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long- term	All assets and liabilities, both short-term and long- term; funds do not currently contain capital assets, although they can
Type of deferred outflow / inflow information	Consumption / acquisition of net position that is applicable to a future reporting period	Consumption / acquisition of fund balance that is applicable to a future reporting period	Consumption / acquisition of net position that is applicable to a future reporting period	Consumption / acquisition of net position that is applicable to a future reporting period
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflow of resources, liabilities and deferred inflow of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two District-wide statements report the District's *net position* and how it has changed. Net Position is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors, such as changes in the District's property
 tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business-type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental fund statements explains the relationship or differences between the two statements.
 - The District's governmental funds include the General Fund, Capital Projects Fund, Special Revenue Funds, and Debt Service Fund.
- Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements.
 - The District's enterprise fund, one type of proprietary fund, are the same as its business-type activities, but provide more
 detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition
 Fund.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Agency funds.
 - Agency Fund These are funds for which the District administers and accounts for certain federal and/or state grants on behalf of other Districts and certain revenue collected for District employees' purchases for the Hearts and Flowers fund and for the CMEA (Education Association) fund.

The District is responsible for ensuring that the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

Government-Wide Financial Analysis

Net assets - Figure A-3 below provides a summary of the District's net position at June 30, 2016 compared to June 30, 2015.

Net position end of year	\$	2,362	1,841	(27)	(40)	2,335	1,801	29.7%

Property tax and unrestricted state grants account for 62.6 percent of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 87.8 percent of the total expenses.

Governmental Activities

Revenues for governmental activities were \$7,337,000 and expenses were \$6,816,000.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2016 compared to the year ended June 30, 2015.

Figure A-5 Total and Net Cost of Governmental Activities (Expressed in Thousands)

Totals	\$	6,816	6,992	-2.5%	4,691	4,923	-4.7%			

For the year ended June 30, 2016:

The cost financed by users of the District's programs was \$1,303,279.

Federal and state governments subsidized certain programs with grants and contributions totaling \$821,647.

The net cost of governmental activities was financed with \$2,982,356 in property tax, \$387,533 in local option sales and service tax, \$1,751,664 in state foundation aid, \$1,848 in interest income, and \$88,517 in other general revenues.

Business Type Activities

Revenues of the District's business-type activities during the year ended June 30, 2016, were \$227,442 and expenses were \$214,404. The District's business-type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

Individual Fund Analysis

As previously noted, the Corning Community School District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

As the District completed the year, its governmental funds reported combined fund balances of \$1,050,748, below last year's ending fund balances of \$1,320,328. The primary reason for the decrease in combined fund balances in fiscal 2016 was due to expenditures for transportation repair, bus purchase, and roof project.

Governmental Fund Highlights

- The General Fund balance increased from \$230,206 to \$319,099. The District's increasing General Fund financial position is the product of many factors. The district increase in general fund revenues was due to cash reserve levy and property tax increases and general fund expenditures increased due to increase in salaries and benefits.
- The Debt Service Fund balance increased from \$170,980 in fiscal year 2015 to \$181,736 in fiscal 2016.
- The Physical Plant and Equipment Levy (PPEL) Fund balance decreased from \$125,918 in fiscal 2015 to \$14,477 in fiscal 2016.
- The Statewide Sales, Services and Use Tax balance decreased from \$499,579 in fiscal 2015 to \$375,738 in fiscal 2016.
- The Management Fund balance decreased from \$211,146 in fiscal year 2015 to \$71,997 in fiscal 2016.
- The Activity Fund balance increased from \$82,499 in fiscal year 2015 to \$87,701 in fiscal 2016.

Proprietary Fund Highlights

The School Nutrition Fund net position increased from (\$39,944) in fiscal 2015 to (\$26,906) in fiscal 2016, representing an increase of 33%.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except its private-purpose trust and agency funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the modified accrual basis. A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report.

Legal Budgetary Highlights

The District's total actual receipts were \$23,199 less than the total budgeted receipts, a variance of 3.1%.

Total expenditures were less than budgeted due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2016, the District had invested \$9,969,875 net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) More detailed information about capital assets is available in Note 4 to the financial statements. Depreciation expense for the year was \$407,368.

The original cost of the District's capital assets were \$14,618,911. Governmental funds account for \$14,455,280 with the remainder of \$163,631 in the Proprietary, School Nutrition Fund.

Long-Term Debt

At June 30, 2016, the District had \$4,510,000 in general obligation bonds, \$1,385,000 in revenue bonds and \$107,650 for an early-retirement plan. This represents a decrease of approximately 4% percent from last year, including the pension and OPEB liability. More detailed information about the District's long-term liabilities is available in Note 5 to the financial statements.

Economic Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Historically, the District has entered into annual contracts with its collective bargaining unit. Settlements in excess of new money or allowable growth in state funding will have an adverse effect on the District's General Fund budget and related fund balance. Corresponding cost reductions will be made to offset the cost of negotiated settlements and other cost increases.
- Increased health insurance cost, transportation costs, and decrease in state aid due to decreased enrollment have and will continue to impact the District.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Jodi Lyddon, District Secretary/Treasurer and Business Manager, Corning Community School District, PO Box 229, Corning, Iowa, 50841.

Basic Financial Statements

Corning Community School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances Governmental Funds to the Statements of Activities Year ended June 30, 2016

Net change in fund balances - total governmental funds (Exhibit E)	\$	(269,580)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. These costs are not reported in the Statement of Activities, but they are allocated over the estimated useful lives of the capital assets as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:		
Capital outlays Depreciation expense	\$ 386,639 (402,069)	(15,430)
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year debt activity is as follows:		
Bond principal repaid Amortization of bond discount	 325,000 (1,385)	323,615
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of		
Activities, interest expense is recognized as the interest accrues, regardless of when it is due.		1,547
The current year District IPERS contributions are reported as expenditures in the governmental funds, but are reported as deferred outflows of resources in the Statement of Net Position.		305,735
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Compensated absences Early retirement	(4,275) 64,590	
Pension expense Other postemployment benefits	 (169,945) 284,819	175,189
Change in net position of governmental activities (Exhibit B)	\$	521,076

(1) Summary of Significant Accounting Policies

Corning Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Corning, Iowa, and the predominate agricultural territory in Adams and Taylor counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Corning Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Corning Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organization</u> – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Adams County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

<u>Fund accounting</u> - The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, deferred inflows/outflows, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following is the District's major governmental funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

<u>Debt Service Fund</u>: The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The other governmental funds of the District are considered non-major and are as follows:

<u>Special Revenue Funds</u>: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Management Fund: The Management Fund is used to account for revenues derived from specific sources which are usually required by law or regulation to be accounted for in a separate fund.

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

<u>Enterprise Funds</u>: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The District reports the following proprietary non-major fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

Fiduciary Funds: Fiduciary fund types are used to account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities. The following are the District's fiduciary fund types:

<u>Agency Fund</u>: This fund accounts for assets held in a custodial capacity by the District for individuals, private organizations or other governments. The District only reports assets and liabilities for this fund.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted Net Position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Cash Equivalents and Pooled Investments</u>— The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

<u>Property Tax Receivable</u> – Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2014 assessed property valuations; is for the tax accrual period July 1, 2015 through June 30, 2016 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2015.

<u>Due from Other Governments</u> – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	<u>Amount</u>
Land	\$ 1,000
Buildings	1,000
Improvements other than buildings	1,000
Furniture and equipment:	
School Nutrition Fund equipment	1,000
Other furniture and equipment	1,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

	Estimated Useful Lives
Asset Class	(In Years)
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

<u>Deferred Outflows of Resources</u> - Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the District after the measurement date but before the end of the District's reporting period.

<u>Salaries and Benefits Payable</u> - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Compensated Absences</u> – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2016. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

<u>Long-term Liabilities</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

<u>Pensions</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the lowa Public Employees' Retirement System (IPERS) and additions to / deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Deferred Inflows of Resources</u> – Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable and income surtax receivable that will not be recognized until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

<u>Fund Equity</u> – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which an be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Unassigned – All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2016, expenditures did not exceed the amounts budgeted.

(2) Cash, Cash Equivalents and Pooled Investments

The District's deposits in banks at June 30, 2016 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2016, the District had investments as follows:

Okey Vernon National Bank Certificate of Deposit	\$ 10,000
State Bank of Brooks Certificate of Deposit	10,000
Bankers Trust	
Goldman Sachs Financial Square Treasury Instruments Funds	151,102
United States Treasury Notes	100,000
Iowa Schools Joint Investment Trust (ISJIT):	
Diversified Portfolio (amortized cost)	 245,868
	\$ 516,970

At June 30, 2016, the District had investments in the Iowa Schools Joint Investment Trust (ISJIT) Diversified Portfolio which are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940. There were no limitations or restrictions on withdrawals of the ISJIT investments. The investments in ISJIT were rated AAAm by Standard & Poor's Financial Services.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No.72.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2016 is as follows:

Transfer to	Transfer from	Amount	
Debt Service	Capital Projects	\$	148,694

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2016 was as follows:

	Bala	Balance beginning			Balance end of	
		of year	Increases	Decreases	year	
Governmental activities:	-	•			-	
Capital assets not being depreciated:

General Obligation Bonds Payable

Details of the District's June 30, 2016 general obligation bonded indebtedness are as follows:

Bond Issue of May 1, 2010								
Year								
ending	Interest							
June 30,	Rates	Principal	Interest	Total				
2017	4.125%	240,000	193,237	433,237				
2018	4.125%	250,000	183,338	433,338				
2019	4.125%	260,000	173,025	433,025				
2020	4.125%	270,000	162,300	432,300				
2021	4.125%	285,000	151,162	436,162				
2022	4.125%	295,000	139,406	434,406				
2023	4.125%	310,000	127,238	437,238				
2024	4.250%	325,000	114,450	439,450				
2025	4.250%	340,000	100,637	440,637				
2026	4.250%	355,000	86,188	441,188				
2027	4.500%	370,000	71,100	441,100				
2028	4.500%	385,000	54,450	439,450				
2029	4.500%	405,000	37,125	442,125				
2030	4.500%	420,000	18,900	438,900				
Total		\$ 4,510,000	1,612,556	6,122,556				

Revenue Bonds

Details of the District's June 30, 2016 statewide sales, services and use tax revenue bonded indebtedness are as follows:

Bond Issue of November 1, 2010							
Year							
ending	Interest						
June 30,	Rates	Principal	Interest	Total			
2017	2.000%	100,000	46,694	146,694			
2018	2.200%	100,000	44,494	144,494			
2019	2.400%	100,000	42,094	142,094			
2020	2.600%	100,000	39,494	139,494			
2021	2.800%	100,000	36,694	136,694			
2022	3.000%	100,000	33,694	133,694			
2023	3.200%	100,000	30,494	130,494			
2024	3.400%	105,000	27,094	132,094			
2025	3.600%	110,000	23,314	133,314			
2026	3.800%	110,000	19,133	129,133			
2027	4.000%	115,000	14,733	129,733			
2028	4.050%	120,000	10,075	130,075			
2029	4.100%	125,000	5,156	130,156			
Total		\$ 1,385,000	373,163	1,758,163			

The District has pledged future statewide sales, services and use tax revenues to repay the \$1,710,000 of bonds issued in November 2011. The bonds were issued for the purpose of financing a portion of the costs of a new school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2029. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 50% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$1,758,163. For the current year, \$148,694 of principal and interest was paid on the bonds and total statewide sales, services and use tax revenues were \$387,533.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds include the following provisions:

- a) \$150,444 of the proceeds from the issuance of the revenue bonds shall be deposited to a revenue account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be distributed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking accounts may be transferred to the project account to be used for any lawful purpose.

The District did comply with all revenue bond provisions during the year ended June 30, 2016. The required reserve account was established by the District.

Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Eligible employees must be at least age fifty-nine and employees must have completed fifteen years of continuous service to the District. Employees must complete an application which is required to be approved by the Board of Education. The early retirement incentive for each eligible employee is equal to 25% of the District's base salary calculated by using the current year regular salary schedule. Early retirement benefits paid during the year ended June 30, 2016, totaled \$75,355.

(6) Pension Plan

Pension Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa, 50306-9117 or at www.ipers.org.

IPERS benefits are established under lowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

<u>Pension Benefits</u> – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, anytime after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, exceet members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

<u>Disability and Death Benefits</u> – A vested member who is awarded Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In the fiscal year 2016, pursuant to the required rate, Regular members contributed 5.95% of pay and the District contributed 8.93% for a total rate of 14.88%.

The District's contributions to IPERS for the year ended June 30, 2016 were \$284,913.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2016, the District reported a liability of \$2,314,100 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2015, the District's proportion was 0.046548%, which was a decrease of 0.002908% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$147,236. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 rred Outflows Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 34,963	-	
Changes of assumptions	63,713	-	
Net difference between projected and actual earnings on IPERS' investments	346,235	538,829	
Changes in proportion and differences between District contributions and the District's proportionate share of contributions	160	95,518	
District contributions subsequent to the measurement date	312,576	-	
Total	\$ 757,647	634,347	

\$312,576 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
June, 30	
2017	\$ (84,568)
2018	(84,568)
2019	(84,568)
2020	70,930
2021	 (6,502)
	\$ (189,276)

There were no non-employer contributing entities at IPERS.

<u>Actuarial Assumptions</u> - The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation	3.00% per annum.
(effective June 30, 2014)	
Rates of salary increase	4.00% to 17.00% average, including inflation.
(effective June 30, 2010)	Rates vary by membership group.
Long-term investment rate of return	7.50% compounded annually, net investment
(effective June 30, 1996)	expense, including inflation.
Wage growth	4.00% per annum, based on 3.00% inflation
(effective June 30, 1990)	and 1.00% real wage inflation.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which bestestimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core plus fixed income	28%	2.04%
Domestic equity	24	6.29
International equity	16	6.75
Private equity/debt	11	11.32
Real estate	8	3.48
Credit opportunities	5	3.63
U.S. TIPS	5	1.91
Other real assets	2	6.24
Cash	1	(0.71)
Total	100%	, ,

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.50%) or 1% higher (8.50%) than the current rate.

	1%		Discount			1%
		Decrease (6.50%)		Rate (7.50%)		ncrease
						(8.50%)
District's proportionate share of the net pension liability	\$	4,051,576	\$	2,314,100	\$	847,549

<u>IPERS Fiduciary Net Position</u> - Detailed information about the IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

<u>Payables to IPERS</u> - At June 30, 2016, the District reported payables to IPERS of \$29,819 for legally required employer contributions and \$19,868 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

(7) Other Post-Employment Benefits (OPEB)

<u>Plan Description</u> - The District operates a single-employer health benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 93 active and 9 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug coverage is purchased through an outside provider. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2016, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 76,630
Interest on net OPEB obligation	10,940
Adjustment to annual required contribution	(71,804)
Annual OPEB cost	15,766
Contributions made	(41,903)
Increase(decrease) in net OPEB obligation	(26,137)
Actuarial elimination of explicit benefit	(265,000)
Net OPEB obligation beginning of year	702,590
Net OPEB obligation end of year	\$ 411,453

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2016.

For the year ended June 30, 2016, the District contributed \$41,903 to the medical plan. Plan members eligible for benefits were not required to contribute.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2016 are summarized as follows:

			Percenta	age of		
	An	nual OPEB	Annual C	PEB	N	let OPEB
Year Ended		Cost	Cost Contr	ributed	0	bligation
June 30, 2010	\$	167,860	2	22.00%	\$	131,006
June 30, 2011		175,377	2	22.69%		266,592
June 30, 2012		187,593	2	20.09%		416,494
June 30, 2013		154,815	4	10.73%		508,257
June 30, 2014		155,698	4	10.23%		601,240
June 30, 2015		169,753	4	10.30%		702,590
June 30, 2016		15,766	38 ₂₆	65.78%		411,453

<u>Funded Status and Funding Progress</u> - As of July 1, 2015, the most recent actuarial valuation date for the period July 1, 2015 through June 30, 2016, the actuarial accrued liability was \$341,844, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$341,844. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$3,200,000, and the ratio of the UAAL to covered payroll was 10.7%. As of June 30, 2016, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2015 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumption includes a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2014 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2014.

The salary increase rate was assumed to be 0% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(8) Risk Management

Corning Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(9) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$182,744 for the year ended June 30, 2016 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(10) Whole Grade Sharing Agreement

Effective July 1, 2013, the District entered into a whole grade sharing agreement with Villisca Community School district. The agreement allows for both Districts to maintain separate Pre-K through 5th grade programs. Villisca Community School District will serve students of both Districts in grades 6-8. Corning Community School District will serve students of both Districts in grades 9-12. This agreement shall continue for five years unless earlier terminated by mutual agreement of both Districts. It will continue thereafter for additional one year terms unless either District delivers written notice to terminate eighteen months in advance.

Corning Community School District Notes to Required Supplementary Information - Budgetary Reporting Year Ended June 30, 2016

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's Budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of lowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2016, expenditures did not exceed the amounts budgeted.

Changes of benefit terms:

Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

Legislative action in 2008 transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rated of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate 20 year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate in the calculation of the UAL amortization payments.

Independent Auditor's Report on Internal Control over Financial Reporting and on

Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education of Corning Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Corning Community School District, as of and for the year ended June 30, 2016, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 21, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Corning Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Corning Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Corning Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified a deficiency in internal control we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part I of the accompanying Schedule of Findings as item (A) to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Corning Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters which are described in Part II of the Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2016 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Corning Community School District's Responses to Findings

Corning Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Corning Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of the testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Corning Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

November 21, 2016

Part I: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCY:

A <u>Segregation of Duties</u> – The limited number of office personnel prevents a proper segregation of accounting functions necessary to assure adequate internal control. This is not unusual in Districts of your size, but the Board should constantly be aware of this condition and realize that concentration of duties and responsibilities in a limited number of individuals is not desirable from a control point of view. Under these conditions, the most effective controls lie in the Board's knowledge of matters relating to the District's operations.

<u>Recommendation</u> - We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances.

Response - We will continue to review our procedures and implement additional controls where possible.

Conclusion - Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters noted.

Part II: Other Findings Related to Required Statutory Reporting

- <u>Certified Budget</u> Expenditures for the year ended June 30, 2016 did not exceed the amounts budgeted.
- 2. <u>Questionable Expenditures</u> No expenditures were noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- 3. <u>Travel Expense</u> No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- 4. <u>Business Transactions</u> Business transactions between the District and District officials or employees are detailed as follows:

Name, Title and

Business	Transaction	
Connection	Description	Amount
Scott Akin		
Board Member		
Akin Building Center	Supplies	\$ 43.726

None of the transactions appear to represent a conflict of interest and they appear to be in compliance with board policies.

Recommendation: The District may want to consult legal counsel to determine disposition of this matter.

Response: We will consider the need to consult legal counsel.

Conclusion: Response accepted.

5. <u>Bond Coverage</u> - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.

- 6. Board Minutes No transactions were noted requiring Board approval which had not been approved by the Board.
- 7. <u>Certified Enrollment</u> No variances in the basic enrollment data certified to the Department of Education were noted.
- 8. <u>Supplementary Weighting</u> Variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

Recommendation: The supplemental weighting data should be corrected.

Response: The lowa Department of Education and the lowa Department of Management will be notified of the error.

Conclusion: Response accepted.

- 9. <u>Deposits and Investments</u> No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.
- 10. Certified Annual Report The Certified Annual Report was certified timely to the Iowa Department of Education.
- 11. <u>Categorical Funding</u> No instances were noted of categorical funding used to supplant rather than supplement other funds.
- 12. <u>Statewide Sales, Services and Use Tax</u> No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of lowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2016, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 499,579
Revenues/transfers in:		
Sales tax revenues	\$ 387,533	
Other local revenues	340	387,873
		887,452
Expenditures/transfers out:		
School infrastructure construction	229,592	
Equipment	133,428	
Transfers to other funds:		
Debt service funds	148,694	511,714
Ending balance		\$ 375,738

For the year ended June 30, 2016, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.
